

SP-SMWRAP

SteadyMax Wrap-Around Camera Mount Platform

The Wraparound Mounting Platform for SteadyMax Camera Poles, choose the exact height needed for cameras, sensors or even antennas.

Then, if needed you can add additional Wraparound Platforms at other heights. If you have cameras, antennas or lights at the top of the pole, you can have multiple sets of cameras at lower points.

This innovative Wraparound Mounting Platform makes it possible to configure almost any setup you will ever need or encounter. The three mounting faces can be used for cameras, attachments, sensors, speakers or any number of other devices.

The Wraparound Platform has a 100 pound load limit, and will allow any PTZ's or mounts Strong Poles makes. It can even fit any mounts from other Manufacturer's (see drawing & dimensions).

Includes 2 Stainless Steel Bands for poles 6" to 8" Diameter
